**DETAILED ACTION**

1. Applicant's amendment of claims 3, 6, 10-14, 19 and addition of new claims 32 is filed 14 March 2002 acknowledged. Claims 1-32 are pending.

***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. Claims 1-26, drawn to a pharmaceutical composition of estramustine and a basic amino acid, method of making and method of use.
  - II. Claims 27-31, drawn to a pharmaceutical composition of an antineoplastic agent and arginine.
  - III. Claims 29-31, drawn to a method of using arginine.
3. Upon thorough consideration of the claims, the examiner has determined that a lack of unity of invention exists, as defined in Rule 13.

Annex B, Part 1(e), indicates the permissible combinations of different categories of claims. Part 1(e(i)) states that inclusion of an independent claim for a given product, an independent claim for a process specially adapted for the manufacture of the said product, and an independent claim for a use of the said product is permissible. As such, Group I combines to a

pharmaceutical composition of estramustine and a basic amino acid, method of making and method of use. The remaining Groups are directed toward additional products and methods and lack unity of invention as indicated below.

***Advisory Information***

4. A telephone call was made to Stefan Koschmieder on July 26, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
